

jetStamp 1025

Print from any position up to 25 mm

The mobile jetStamp 1025 can print up to a print height of 25 mm (1") and this can be done with only one print cartridge. For a smear resistant impression on various surfaces, such as: paper, cardboard, wood, metal, plastics and textiles there are two types of ink available.

You do not have to move your product or the jetStamp 1025 for the printing process: simply attach the device and start printing. The integrated movable print head then ensures the finest print details with a resolution of 300 dpi.

The diverse print spectrum includes freely adjustable continuous 1-D and 2-D barcodes, date, time, texts, numbers or graphics, such as the IPPC logo or company logo.

For more information visit elried.de

Special ink for wood - highly opaque and UV-resistant

Special ink for non-absorbant surfaces, for example metal, foils, plastic

Battery capacity for at least 1.000 prints

Specifications

Components

- Memory**
 - Large number of imprints due to a micro SD card
- Print engine**
 - TIJ cartridge-based print technology
- Print capability**
 - Continuous 1D and 2D barcodes, date / time, texts, numbers and graphics (company / IPPC logo)
 - Maximum print height of 25 mm
 - Maximum print length 85 mm
 - Graphics: BMP, JPG, TIFF, GIF
 - Create a print on the PC and data transfer via USB, Bluetooth, microSD card
 - 300 dpi
- Print process**
 - Print by automatic movement of the print head
 - Max. Printing speed: 0.9 s / print
 - Ergonomic handling due to multiple release: on the side and in the middle of the handle
- Power supply**
 - Integrated battery
 - Charging the batteries using a charging cable
 - Battery capacity up to 1,000 prints
- Dimensions (W/H/D)**
 - Device: 194 x 200 x 92 mm
- Weight**
 - 0,75 kg - without ink cartridge
- Features**
 - 100% mobile due to an integrated printhead seal & integrated battery
 - Integrated display with user-friendly menu navigation
 - Independent unit, can be used without a PC
 - PC connection via USB port
 - Easy creation of texts using intuitive Windows software
 - Possible connection to Windows-based programs, ERP systems or barcode label software (individual programming by customer required)
 - Inks for absorbent surfaces (wood, etc.) and non-absorbent surfaces (metal, plastic)
 - Very quick drying behavior of the inks

Warranty

- 12 month (consumables excluded)
