

# jetStamp 970

## Print from any position

jetStamp 970 is a special inkjet-system for mobile labelling, especially if limited printinarea is available. Printing is possible simply by putting the jetStamp on the free surface, in 300dpi quality in font or logos.

Furthermore the jetStamp scopes exeptionally well on rough surfaces such as wood. However with a simple cartridge changeover a shift to metal or plastic surfaces is possible.

### Particluarly suited

For users who need to print labels outside regular production with a very compact system and don't want to make compromises in print quality.

For more information, visit [elried.de](http://elried.de)

Special ink for wood - highly opaque and UV-resistant

Special ink for non-absorbant surfaces

Battery capacity for at least 1.000 prints

Works with standard AA batteries

Print classical bar codes and general 2D codes

Print everywhere in any position

Standard USB 2.0 port for back-ups and easy data exchange

100% maintenance-free cartridge system

# jetStamp 970

## Specifications

### Components

- Memory**
  - 4 memory slots - selectable via rotary switch
- Print engine**
  - TIJ cartridge-based print technology
- Print capability**
  - character, logos, date/time, 1D- and 2D-barcodes
  - Maximal pressure altitude of 12,7 mm (max. 4 lines from 2,7mm to 12,7 mm)
  - Maximal printing length 65 mm
- Print process**
  - Print by automatic movement of the print head
  - Max. print speed: < 1 s/print
- Power supply**
  - 3 standard AA batteries
  - Recharging the batteries is possible with the USB cable
- Dimensions (W/H/D)**
  - Machine: 140 x 160 x 85 mm
  - Base station: 155 x 140 x 30 mm
- Weight**
  - 0,5 kg - without ink cartridge
- Features**
  - Independent unit, applicable without PC
  - PC connection via USB port
  - Alternative control as well with bluetooth possible
  - Simple preparation of the texts with intuitive windows-software
  - USB charger included in the package
  - Alternative inks for absorbent surfaces (wood etc), as well as non-absorbent surfaces (metal, plastic)
  - Very fast drying behaviour of the inks

### Warranty

- 12 month (consumables excluded)
